# State of California Re-opening Roadmap

## Resilience Roadmap Stages

### STAGE 1: Safety and Preparedness

Making essential workforce environment as safe as possible.

### STAGE 2: Lower Risk Workplaces

Creating opportunities for lower risk sectors to adapt and re-open.

Modified school programs and childcare re-open.

### STAGE 3: Higher Risk Workplaces

Creating opportunities for higher risk sectors to adapt and re-open.

### STAGE 4: End of Stay-At-Home Order

Return to expanded workforce in highest risk workplaces.

Requires Therapeutics.

## Stage 2: Lower-risk workplaces

Gradually opening some lower risk workplaces with adaptations at a pace designed to protect public health and safety, starting with:

- Retail
- Manufacturing
- Offices (when telework not possible)
- Outdoor Museums
- Limited Personal Services

Limit time outside the home and travel only for permissible activities, such as healthcare, food, outdoor exercise and recreation (individuals and households only). Stage 1 and 2 work, and local shopping or other activities related to open sectors.

Some counties may move more quickly through stage 2, following guidelines laid out on the [county variance page](#).

Other counties may maintain more restrictive public health measures.

Monitor critical indicators and alter scope of reopening if necessary to protect public health and safety.

# Phase 3 for San Joaquin County (as of June 12, 2020)
