We Look Forward To Seeing You

Since 2017, Beach Cities Health District (BCHD) has been working with the community to reimagine our aging campus to better reflect our mission and meet the current health needs of residents. In pursuit of this vision, the BCHD Board certified the Final Environmental Impact Report for the Healthy Living Campus Master Plan in September, and approved the project in November. These open houses will focus on how BCHD will proceed with a Conditional Use Permit (CUP). This is our community's unique opportunity to chart the future of preventive health in the Beach Cities.

What is a Conditional Use Permit? (CUP)

Conditional use permits (CUPs) are uses permitted on a permanent basis within a district as long as the governing body's conditions are met. Permitted conditional use permits are expressly listed for each district in the zoning ordinance. BCHD is working with the City of Redondo Beach on a CUP for its Healthy Living Campus master plan.
