## **MATT'S PLACE FOUNDATION TO RECEIVE \$8,500 DONATION**

Matt's Place Foundation, a charitable organization serving those with ALS, will receive a check on Friday, August 29 at 9:00 a.m. for \$8,500 from the Inland Northwest AGC's Construction Leadership Council.

The donation is proceeds from the organization's Charity Boat Cruise in May, and will be presented at Matt's Place Foundation's Coeur d'Alene House, a state-of-the-art "smart home" designed and built to serve the unique needs of those living with ALS and their families. The home, located at 2678 W. Sorbonne Dr., Coeur d'Alene, Idaho 83815. **Media members are welcome to attend.**

The donation will go toward furthering the Matt's Place mission of bringing hope and support to ALS patients and their loved ones, inspired by local construction industry member and former marine Matthew Wild, who was diagnosed with ALS in 2015. ALS is a neurological degenerative disease in which a person's muscles shut down over time. At this time, there is no cure.
