CONSTRUCTION INDUSTRY UNITES TO SHOWCASE TRADES

Tonight East Valley High School becomes a construction site.

East Valley School District has partnered with the Inland Northwest AGC to host East Valley Trades Night and Career Crossover, a free community event for all ages allowing the general public to participate in hand-on construction activities. From 5 – 8 PM at East Valley High School (15711 E Wellesley Ave, Spokane Valley, WA 99216) students and their families will get the opportunity to operate heavy equipment, use power tools, and drive excavators.

It's also a chance to learn more about careers in the skilled trades. Real construction professionals will be there to offer advice, share pathways and help students get connected with potential future careers. **Media members are welcome to attend.**

The Inland Northwest AGC is a membership organization dedicated to advancing the needs of commercial construction contractors and the leading national construction trade association representing all facets of commercial construction for both public and private entities including building, heavy, highway, and municipal projects. Founded in 1921 and representing over 400 companies throughout our region, the Inland Northwest chapter is the region's largest full-service commercial construction trade association and is one of 89 chapters of the Associated General Contractors of America.
