

Dear Inland Northwest AGC Member,

Attached you will find your **2023 National AGC Safety Award (NASA) application form**. I encourage all our members to PLEASE FILL IT OUT & RETURN IT! As a reminder the old requirement of participating 3 years in a row to be eligible for the National Award has been dropped, so ALL applicants will be considered for a National Award. This application only takes 10 Minutes to fill out and return. All of the information to complete the form can be found within your OSHA 300A report. Your application must be returned by **February 10th**. Please send your completed forms to Kimberly Coleman- kimc@nwagc.org

Imagine being able to use “Recipient of the 2023 National AGC Safety Award” as a marketing tool! You have worked hard to achieve your safety status, why not get the recognition you are due? The only way this can be done is to begin applying today and continue annually.

Please take a few moments to fill out your form and return it to us, so that we at the Inland Northwest AGC can proudly let others know of your great achievement.

The following paragraphs describe the different divisions if you need to review that information. Review the Division Descriptions before selecting your division/construction type(s).

- 1. If you perform work in multiple divisions, you can do one of the following:**
 - **Compete in one division by submitting your safety statistics and work hours for that division only, or,**
 - **Compete in multiple divisions by separating your safety statistics and work hours accordingly.**
- 2. Multiple entries in the same division are not allowed.**
- 3. If you perform work in multiple states, you must report all safety statistics and work hours for those states. Do not separate by state.**

Should you have any questions, please do not hesitate to contact me directly. Thank you.

Dean H. Thoemke, BS, SE, CHST, ASP
