## **PREAMBLE**

**THIS AGREEMENT** is a Successive Principle Agreement to the Eastern Washington and Northern Idaho Carpenters 2022 – 2025 Agreement and all other prior Agreements thereto by and between the above-named parties (or their predecessor organizations).

This is an Area Collective Bargaining Agreement between the Inland Northwest AGC (a Chapter of the Associated General Contractors of America, Inc.) (referred to as the "Employer"), and the Western States Regional Council of Carpenters and Local Unions of the United Brotherhood of Carpenters and Joiners of America, (referred to as the "Union"), and shall constitute an Agreement between the parties hereto for the work, conditions and wage rates provided for herein the territory of Eastern Washington and Northern Idaho.

## **ARTICLE I PURPOSES**

- 1.1 The purposes of this Agreement are to promote the settlement of labor disagreements by conference, to prevent strikes and lockouts, to stabilize conditions in Highway, Heavy and Building construction work in the area affected by this Agreement, to prevent avoidable delays and expenses, generally to encourage a spirit of helpful cooperation between the Employer and the Employee Groups to their mutual advantage.
- 1.2 The person signing this Agreement on behalf of each Employer warrants and guarantees his authority to act for and bind such Employer. Each person signing this Agreement on behalf of the Union warrants and guarantees his authority to act for, bind, and collectively bargain for and on behalf of the Union.

## **ARTICLE 2 PARTIES**

- 2.1 This Agreement shall apply to all Building, Heavy, Highway Construction (except residential construction) coming within the recognized jurisdiction of the Western States Regional Council of Carpenters of the United Brotherhood of Carpenters and Joiners of America, and the signatory Local Unions, and individual members thereof, except that it shall not apply to Superintendents, Master Mechanics, Civil Engineers, Timekeepers, Messengers, Guards, Confidential Employees, Clerks or other office employees.
- 2.2 The Union is recognized as the sole bargaining agent for employees covered by this Agreement.

## **ARTICLE 3 MANAGEMENT'S RIGHTS**

- 3.1 The Employers retain full and exclusive authority for the management of their operations. The Employers shall direct their working forces at their sole prerogative, which includes but is not limited to hiring, promotion, transfer, layoff or discharge. No rules, customs, or practices, shall be permitted or observed which limit or restrict production, or limit or restrict the working efforts of employees. The Employers shall utilize the most efficient methods or techniques of construction, tools, or other labor-saving devices. There shall be no limitations upon the choice of materials or design. The Employers shall schedule work, and shall determine when overtime will be worked, and the number of employees to be utilized.
- 3.2 The foregoing enumeration of management rights shall not be deemed to exclude other functions not specifically set forth. The Employers, therefore, retain all legal rights not specifically covered by this Agreement.

## **ARTICLE 4**

## **NO STRIKES - NO LOCKOUTS**

- 4.1 It is mutually agreed that there shall be no authorized strikes, lockouts, or other slowdowns or cessation of work by either party on account of any labor differences pending the full utilization of the grievance procedure set up in Article 14, provided that employees covered by this Agreement shall not be expected to pass through a duly authorized picket line.

## **ARTICLE 5 TERRITORY COVERED**

- 5.1 This Agreement shall cover all Highway, Heavy and Building Construction work in the following counties or parts of Counties East of the 120<sup>th</sup> Meridian: Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant (including area west of the 120<sup>th</sup> meridian) Kittitas, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman, and Yakima, in the State of Washington; and Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone, and north of the 46<sup>th</sup> parallel of Idaho County in the State of Idaho.

## **ARTICLE 6 UNION SECURITY**

- 6.1 All employees covered by this Agreement and coming under the jurisdiction of the Union, as set forth in Article 2 shall, as a condition of employment, become members of the appropriate Local Union within eight (8) days following the date of their employment, and shall remain Members in good standing during the term of this Agreement. "Good standing" for the purpose of this Agreement is interpreted to mean all employees shall maintain their Membership with the current month's dues paid in their Local Union. When an employee fails to tender to their Local Union such initiation fees or periodic union dues as are required for good standing membership, the Employer will, upon written request from the Union, dismiss the employee at the close of the shift.
- 6.2 Union Security, shall not be applicable on work within the state of Idaho until the repeal or modification of the Idaho Right-to-Work law enabling the legal implementation of the clause, at which time the clause shall automatically become applicable to work performed within the state of Idaho.

## **ARTICLE 7 SCOPE OF AGREEMENT/CRAFT JURISDICTION**

- 7.1 **Scope of Work Language.** The parties acknowledge that they have been unable to reach agreement on the scope of work language. To resolve this issue, the parties agree to meet monthly via Zoom or another mutually agreed-upon virtual platform for the purpose of finalizing the scope of work language. Any scope of work language agreed upon by the parties shall be deemed incorporated into this Agreement, shall apply retroactively to the effective date of this Agreement, and shall remain in effect for the full term of the Agreement unless otherwise modified by mutual written agreement of the parties.

## **ARTICLE 8 SUBCONTRACTING**

- 8.1 If a contractor bound by this Agreement contracts or subcontracts any work covered by this Agreement to be done at the job site of the construction, alteration, or repair of a building, structure, or other work to any person or proprietor who is not a signatory to this Agreement, the Employer shall require such subcontractor to be bound to all the provisions of the Agreement, such contractor shall maintain daily records of the subcontractor's employees' job site hours, and be liable for the payment of these employees' wages, travel, Health & Security, Retirement, and Apprenticeship and Training contributions (or differential) in accordance with this Agreement.
- 8.2 In the areas of drywall, acoustical, wood framing, and insulation, if the Employer is unable to find qualified Union subcontractors, Article 8 will be waived by mutual agreement after review of the bids by the Union under the following conditions:
- 8.2.1 If the contractor receives three (3) union subcontractor bids on any one segment of work (drywall, acoustical, wood framing, and insulation) referenced above, the contractor will select and use one of the union subcontractors.
- 8.2.2 If three (3) union subcontractor bids are not received on any segment of work (drywall, acoustical, wood framing, and insulation) referenced above, then the Employer may use the non-signatory subcontractor provided the non-signatory subcontractor's bid is more than 5% lower than the lowest Union subcontractor bid; this bid may be used by the Employer, provided the non-signatory subcontractor is an established licensed contractor who has operated within the territory of the Agreement.
- 8.3 Exemptions beyond these areas as referenced in Section 8.2 must be agreed to by the Union prior to the start of work.
- 8.4 Whenever the Employer is obligated to satisfy MBE-WBE or other governmental subcontracting requirements, the Union and the Employer will agree to waive this provision in the event an Employer and Union are unable to find qualified Union subcontractors prior to the bid opening. This provision shall not be implemented with any intent other than to meet governmental subcontracting requirements.
- 8.5 It is understood that this Article applies only to work jurisdiction claimed by the United Brotherhood of Carpenters and Joiners of America.

## **ARTICLE 9 HOURS OF WORK - SHIFTS - OVERTIME**

- 9.1 The work week will start with the first shift on Monday and conclude with the third shift on Friday. Eight (8) hours per day shall constitute a standard workday between the hours of 6:00 a.m. and 6:00 p.m. with a one-half ( $\frac{1}{2}$ ) hour unpaid lunch period. Hours of work may be changed by the Employer with twenty-four (24) hour prior notification to the Union. Forty (40) hours per week, Monday through Friday, shall constitute a regular work week.
- 9.2 Employees will be at their place of work, ready for work, at the start of the shift. The place of work shall be defined as the gang or toolbox or equipment at the employee's assigned work location. Dry and/or lunch shacks (for clarification, see SCHEDULE "C" Carpenters Work Rules) and/or check-in locations shall be placed as near the gang box or work location as possible. Crews on shift will be given adequate time to gather up their tools before quitting time. Employees being terminated or laid off shall be given adequate time to collect tools and belongings prior to the end of the shift. On jobs where the Employer or owner prohibits private vehicles beyond a designated area, the Employer will furnish a man haul or permit the employees sufficient time to walk to the parking lot by quitting time.

9.3 Work performed in excess of eight (8) hours per day Monday through Friday, or outside the normal shift, and all work on Saturdays shall be paid at one and one-half (1 ½) the straight time rate. All work performed on Sundays and Holidays and after twelve (12) hours per day shall be paid at double (2) the straight time rate of pay. In no case shall overtime pay exceed double the straight time rate of pay. The Employer shall have the sole discretion to assign overtime work to employees with consideration of retention of the Job Steward (See Article 13).

9.4 Shifts may be established when considered necessary by the Employer. Shift hours and rates will be as follows:

9.4.1 **Two Daylight Shift Operations:** On a two consecutive shift operation, no shift differential is involved for work performed on either of these two shifts. Each shift must be scheduled for at least eight (8) hours except as provided for in Section 1 of this Article. On a two-shift operation, the second shift shall be established for a minimum of three (3) days. Once the starting times are established for the two-shift operation, they shall not be changed except upon three (3) days' notice to the Union.

9.4.2 **Three Shift Operation:** On a three-shift operation, the following shall apply:

**FIRST SHIFT:** The regular hours of work on the first shift of multiple shift operations shall be eight (8) hours of continuous employment except for the lunch period at mid-shift, between the hours of 6:00 a.m. and 6:00 p.m.

**SECOND SHIFT:** The second shift shall be seven and one-half (7 ½) hours of continuous employment except for the lunch period at mid-shift, and shall be paid for eight (8) hours at the straight-time hourly rate.

**THIRD SHIFT:** The third shift shall consist of seven (7) consecutive hours of employment, except for the lunch period at mid-shift, between the hours of 12:30 a.m. and 8:00 a.m., and shall be paid for eight (8) hours at the straight-time hourly rate.

9.4.3 **SPECIAL SHIFTS:** When due to conditions beyond the control of the Employer, or when contract specifications require that work can only be performed outside the regular day shift, then by mutual agreement a special shift may be worked at the straight-time rate, eight (8) hours work for eight (8) hours pay. The starting time shall be arranged to fit such conditions of work.

If employees are called back to the job without receiving an eight (8) hour break between shifts, they shall continue at the applicable overtime rate.

**A Special Shift Premium** for prevailed work in Washington is a basic hourly rate plus \$2.00 per hour. When due to conditions beyond the control of the Employer or when an owner (not acting as the contractor), a government agency, or the contract specifications require that more than four (4) hours of the special shift can only be performed outside the normal 6 AM – 6 PM shift, then the special shift premium will be applied to the basic straight time for the entire shift. When an Employee works on a special shift, they shall be paid the special shift premium for each hour worked unless they are in overtime or double-time status.

9.5 Option for 4-Ten Hour Shift:

The Employer may, at his option, establish a first and/or second shift consisting of ten (10) hours of work, exclusive of a one-half (½) hour non-paid lunch period per day, that shall constitute a normal forty (40) hour work week, provided that it does not conflict with Federal, State or local regulations or laws. The Employer can change from a 5-eight to a 4-ten hour schedule or back to the other, subject to the limitations that it will give the Union at least three (3) calendar days' notice of such change and maintain such shift for a minimum of one (1) work week. All hours of work on these shifts shall be paid for at the basic straight-time hourly wage and fringe rate, overtime will apply after ten (10) hours. No ten-hour second shift may be established without a preceding ten-hour first shift. (Also see Article 17)

- 9.6 In the event the job is down for any reason beyond the Employer's control, including holidays as defined by Article 11, then Friday may, at the option of the Employer, be worked as a voluntary make-up (no employee shall be terminated for refusal to work a make-up day).
- 9.7 **Weekend Shutdowns:**  
Where the work is started and completed within a period between 12:00 p.m. Friday night and 8:00 a.m. the following Monday morning, all work will be performed at the time and one-half (1½) the applicable rate.
- 9.8 On a project working a makeup day, if one (1) carpenter is paid overtime, all affected Carpenters will be paid the applicable overtime rate.

## **ARTICLE 10 LUNCH AND REST PERIODS**

- 10.1 Employees shall not be required to work more than five (5) hours from the start of their shift without a one-half (½) hour (nor more than one (1) hour) break for lunch. This period shall not begin earlier than three and one-half (3 ½) hours after the start of the shift and shall not begin later than five (5) hours after the start of the shift. If they are required to work past this time and they are denied the time to eat, they shall be paid at the applicable overtime rate until such time as they are allowed to eat their lunch. If not allowed to eat lunch, employees will be paid an additional one-half (½) hour of overtime. Employees required to work more than two (2) hours after the end of the regular shift shall be allowed to at least one-half (½) hour meal period which shall be considered as time worked, and if it is impractical for the employees to leave the job, they shall be provided a lunch by the Employer.
- 10.2 Employee's lunch period may be staggered during the period of three and one-half (3 ½) to five (5) hours from the start of the shift to cover necessary work of a continuous nature.
- 10.3 Employees shall be allowed a rest period of not less than 10 minutes, on the Employer's time, for each four (4) hours of working time. Rest periods shall be scheduled as near as possible to the midpoint of the work period. No employee shall be required to work more than three (3) hours without a rest period. The rest period may be taken at the workstation when reasonable. Where the nature of the work allows employees to take intermittent rest periods equivalent to ten minutes for every 4 hours worked, scheduled rest periods are not required. A rest period means to stop work duties, exertions, or activities for personal rest and rejuvenation.

It will be the responsibility of each employee to take rest periods. If an employee does not take a rest period, then the employee must notify his/her supervisor and a rest period will be provided.

If any of the following holidays fall on a Sunday, Monday will be observed as the holiday. If any holiday falls on a Saturday, the preceding Friday shall be observed as a holiday. The holiday shall be the twenty-four (24) hour period commencing with the established starting time of the day shift on the day of the holiday.

The fringe benefit contribution rates shall be those as established by the Master Agreement. In the event a Health and Security contribution rate increase exceeds forty (40) cents per

## **ARTICLE 21 SPECIAL CONDITIONS**

- 21.1 Both parties recognize that there may be extenuating circumstances when it is to the mutual interest of both parties to modify the terms of this Agreement. In that event, it will not be a violation of this Agreement for the parties to meet and mutually agree to make such modifications to meet a specific need on a specific project.
- 21.2 In order to maximize the effect of this provision, all crafts will be requested to act uniformly. The general contractor shall request his/her subcontractors to comply with any modifications granted under this provision.
- 21.3 Whenever non-Union contractors are present on a bid list or negotiating for a job, this Article may be implemented upon request. Where no union bidders are present on a bid list, the Union will request union contractors to bid that work whenever possible. This Article will be denied to any non-signatory contractor or any double-breasted contractor. Any decisions concerning Special Conditions of this Agreement shall be final and binding on all parties. The Union shall establish a Work Preservation Committee ("WPC") to review any requests for variance from this Agreement in order to assure that signatory contractors and their union employees remain competitive in the relevant labor market. The goal is to have a flexible working structure for the WPC to allow it to quickly respond to needed changes in the marketplace. The WPC will give signatory contractors the tools they need to obtain work in geographical areas or in particular segments of the construction industry where they have not been able to successfully compete. For the contractor this tool will be used aggressively to increase work opportunities for union contractors and union members. WPC procedures shall be distributed to all signatory contractors requesting work preservation. The decisions of the WPC will be discussed during Inland Northwest AGC Labor Management Committee meetings.

Effective termination eliminates automatic renewal. The parties shall begin negotiations within thirty (30) days after receipt of any notice.

## **ARTICLE 24 SUBSTANCE ABUSE POLICY**

### **24.1 SUBSTANCE ABUSE POLICY**

Labor and Management are committed to providing employees with a drug-free and alcohol-free workplace. It is the goal to protect the health and safety of employees and to promote a productive workplace, and protect the reputation of Labor and Management and the employees.

A testing program, pursuant to the Substance Abuse Program, may be instituted, upon mutual consent of Labor and Management which consent shall not unreasonably be withheld to monitor compliance with this policy.

An acceptable Substance Abuse Program is contained in a separate addendum to this Area Collective Bargaining Agreement, but it is not a part of this Agreement and modifications to this Substance Abuse Program, by mutual agreement of an Employer and the Union, will not constitute a change to this Agreement. Mutual agreement will not be unreasonably withheld.

## **ARTICLE 25 LABOR AND MANAGEMENT COMMITTEE**

- 25.1 A Labor and Management Committee shall be established to meet quarterly to discuss issues from the contract and issues that will improve and better the industry.

**ARTICLE 26**

26.1 It is agreed that the Employer may return an injured employee to light duty status when allowed by the employee's doctor. When such light duty work is available, light-duty functions shall be in accordance with the restrictions outlined by the employee's doctor. At no time will an employee's rate of pay be less than the total taxable rate of pay, at the time of injury, for hours worked. Further, the Employee will be provided with a full fringe package, as per the collective bargaining agreement, over and above total remuneration. Should the employee on light duty have to be laid off, due to no work available, the employer will not adversely affect his/her ability to continue to receive loss time benefits from the Industrial Insurance Division of Labor and Industries (including self-insured employers), provided they are still medically eligible.

If discrepancies are found, the auditor will estimate the hours worked based upon the total compensation assessed and calculate the appropriate contributions owed to the Trusts based upon that estimate. This process ensures that benefit contributions are accurate and that all parties remain in compliance with the agreement.

## **CLARIFYING ATTACHMENT CARPENTER AND PILEDRIVER**

May 13, 1955

I am herewith submitting the findings of the General Executive Board on the controversy between carpenters and piledrivers classifications in the west coast area.

Further revised and clarified by the General Executive Board, December 12, 1967.

The work jurisdiction of our carpenters and piling branches of our Brotherhood on the West Coast shall be as follows:

- (1) In the construction of water front and marine facilities, such as docks, piers, wharves, bulkheads, jetties and similar structures, the piledriver classification shall continue to apply, up to and including the decking thereof.
- (2) On all piling and caisson work, on land and water, the piledriver classification shall apply.
- (3) In the construction of heavy timber, wooden bridges, whether over land or over water, the Piledriver classification shall apply.
- (4) In the construction of concrete or steel bridges over land, highways, railroads, overpasses, cloverleaves, interchanges, or bridges over man-made canals, aqueducts, spillways and man-made water retaining areas, the piledriver classification shall apply to the driving of the piles, caissons and "drilled-in place" piling. The fabrication and erection of the forms for the capping of piles, caissons, or "drilled-in-place" piling shall come under the piledriver classification. This shall include the placing of wooden or steel capping or any substitute thereof. Any other form work above the cap, pertaining to the construction operation; herein noted above shall be performed under the carpenters classification. This shall also include bridges over man-made canals, aqueducts, spillways and man-made water retaining areas, if constructed prior to water being released or turned into the area.
- (5) In the construction of concrete or steel bridges over water, in fabrication and erection of the form work for the pier or piers in the water area, and the pier abutment, on land, nearest to the water's edge, shall be under the piledriver classification. This shall include the fabrication and erection of the form work to the top of the pier, column and abutment supporting the steel and/or any other superstructure.

The fabrication and erection of forms for the piers, columns or abutments for the approaches to the first pier or abutment on water's edge, shall be under the carpenters classification. This shall apply also on a bridge over an area where the flow of water has been temporarily diverted.

### **BUILDING FOUNDATIONS**

All form work required on building foundations shall be under the Carpenter's classification, irrespective of the use of piles or caissons.

### **CAPPING OF PILES OR FORM WORK ON TANK FOUNDATIONS**

The capping of piles and form work in connection therewith, when there is not other carpenter form work involved above the capping or floor base of tank, shall be under the piledriver classification. Where further Carpenter work is required above the capping or tank base, then the carpenter classification shall apply on entire operation including the forms for pile capping and/or tank base.

## **BASE FOUNDATIONS FOR MACHINERY, EQUIPMENT AND STANCHIONS**

The fabrication and erection of all forms for machinery, bases, equipment or stanchions shall be under the Carpenter's Classification, irrespective of the use for piles or caissons.

## **THE ERECTION OF FALSEWORK, INCLUDING METAL TUBULAR (or "Tinker Toy") MATERIAL USED AS FALSEWORK**

The erection of falsework necessary for the support of work under the piledriver classification comes under their classification. Falsework necessary for the support of the work under the Carpenter's Classification shall be governed by their classification except on a project where piledriving power equipment is used.

The rigging, signaling, tagging and other incidental work shall be under the classification for which the work is designed by this paragraph.

In the construction of open cut sewer, the piledriver classification shall apply on all piling including wood, steel or concrete sheet piling, all bracing timber and form work incidental to the construction thereof.

In concluding this report the General Executive Board believes that these revisions and clarifications herein outlined will tend to solve much of the misunderstanding that has existed between the two classifications of our membership on the West Coast. All of the above shall be effective only in the West Coast area where the controversy occurred.

Fraternally yours,  
s/M. A. Hutcheson  
General President
