POLICY ISSUES

Vote to approve a tax?

If in the future a statewide tax is proposed by the legislature, would you support or oppose requiring the tax be approved by a vote of the people before it could take effect?

Using a portion of PFD for government?

Do you support or oppose using a portion of the Permanent Fund Dividend to pay for state government?

**2018 read: Use of some Permanent Fund earnings while guaranteeing a dividend equal to the historical average of \$1,200.*

**2017 read: Use of some Permanent Fund earnings while guaranteeing a dividend equal to the historical average of \$1,000.*

**2016 read: Use of some Permanent Fund earnings with dividends capped to \$1,000 per year.*

Guarantee PFD in Constitution?

Do you support or oppose a state constitutional amendment to guarantee payment of the Permanent Fund Dividend each year?

Constitutional Spending Cap

Do you support or oppose a state constitutional amendment to put in place a spending cap on state spending?

Workers' Compensation Reform

Workers' Compensation is a form of insurance providing wage replacement and medical benefits to employees injured in the course of employment. Alaska businesses pay some of the highest costs for Workers' Compensation insurance in the nation, and legislative reforms have been proposed to reduce those costs.

The business community supports reforms to Workers' Compensation because they will bring the cost of insurance in Alaska to be more in line with the costs incurred in other states.

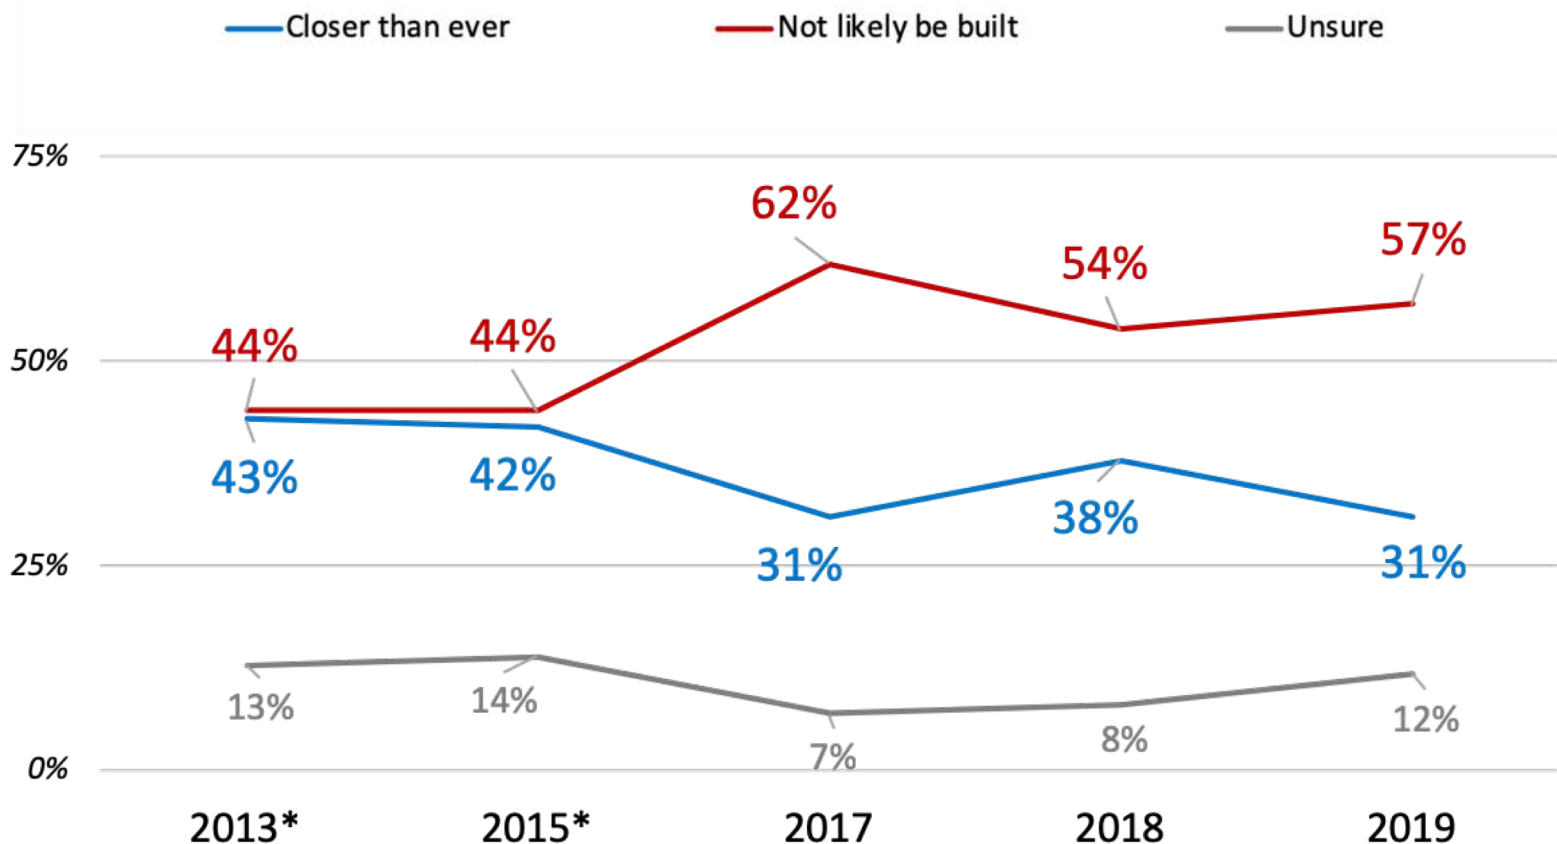

The healthcare community does not support reforms, saying the reforms will decrease the benefits for injured workers.

What is your opinion? Do you support or oppose workers' compensation reform?

RESOURCE DEVELOPMENT

Natural Gas Pipeline

Please tell me which of the following two statements comes closest to your view regarding a potential natural gas pipeline from the North Slope: **Alaska is closer than ever to getting a natural gas pipeline built** — or — **a natural gas pipeline will not likely be built in the foreseeable future.**

ANWR Exploration and Production

Do you support or oppose exploration and production of oil and gas in a portion of ANWR, that is the Arctic National Wildlife Refuge?

Final Thought

"...one key issue has consistently remained a priority for more than 20 years, both when the state was flush with cash from high oil prices and when it was struggling through economic recession: the need for a sustainable fiscal plan focused on Alaska's future."
