<p>Extended Weight</p> 	<p>Extended Weight and/or Overlength Permit (Code 13): Authorizes operations to exceed the maximum legal weight of 80,000 pounds up to a maximum of 105,500 pounds provided the combination has the proper axles and spacing to haul the weight. Axle weights must be legal. Bridge weights must conform to either Weight Table 1 or 2. This permit is also issued for certain type of combinations to exceed legal length on some county roads.</p> <p>Splash and spray devices are required on combinations exceeding 80,000 pounds when operating on highways that are wet, including those surfaces that have rain, frost, ice, sleet or snow.</p>
--	--

<p>Heavy Haul/Overwidth</p> 	<p>Heavy Haul Overwidth & Overweight 98,000 pounds Permit (Code 03): Authorizes movement of an overwidth and/or overweight load on a truck-tractor semitrailer combination. The maximum gross weight authorized by this permit is 98,000 pounds, not to exceed 43,000 pounds on a tandem axle or 21,500 pounds on a single axle and not to exceed the wheelbase weights authorized by Weight Table 3.</p> <p>Overwidth & Legal Weight 80,000 pounds Permit (Code 01): Authorizes movement of an overwidth and legal weight load on a truck-tractor semitrailer combination. The maximum gross weight authorized by this permit is 80,000 pounds, not to exceed 34,000 pounds on a tandem axle or 20,000 pounds on a single axle and not to exceed the wheelbase weights authorized by Weight Table 1.</p>
---	---

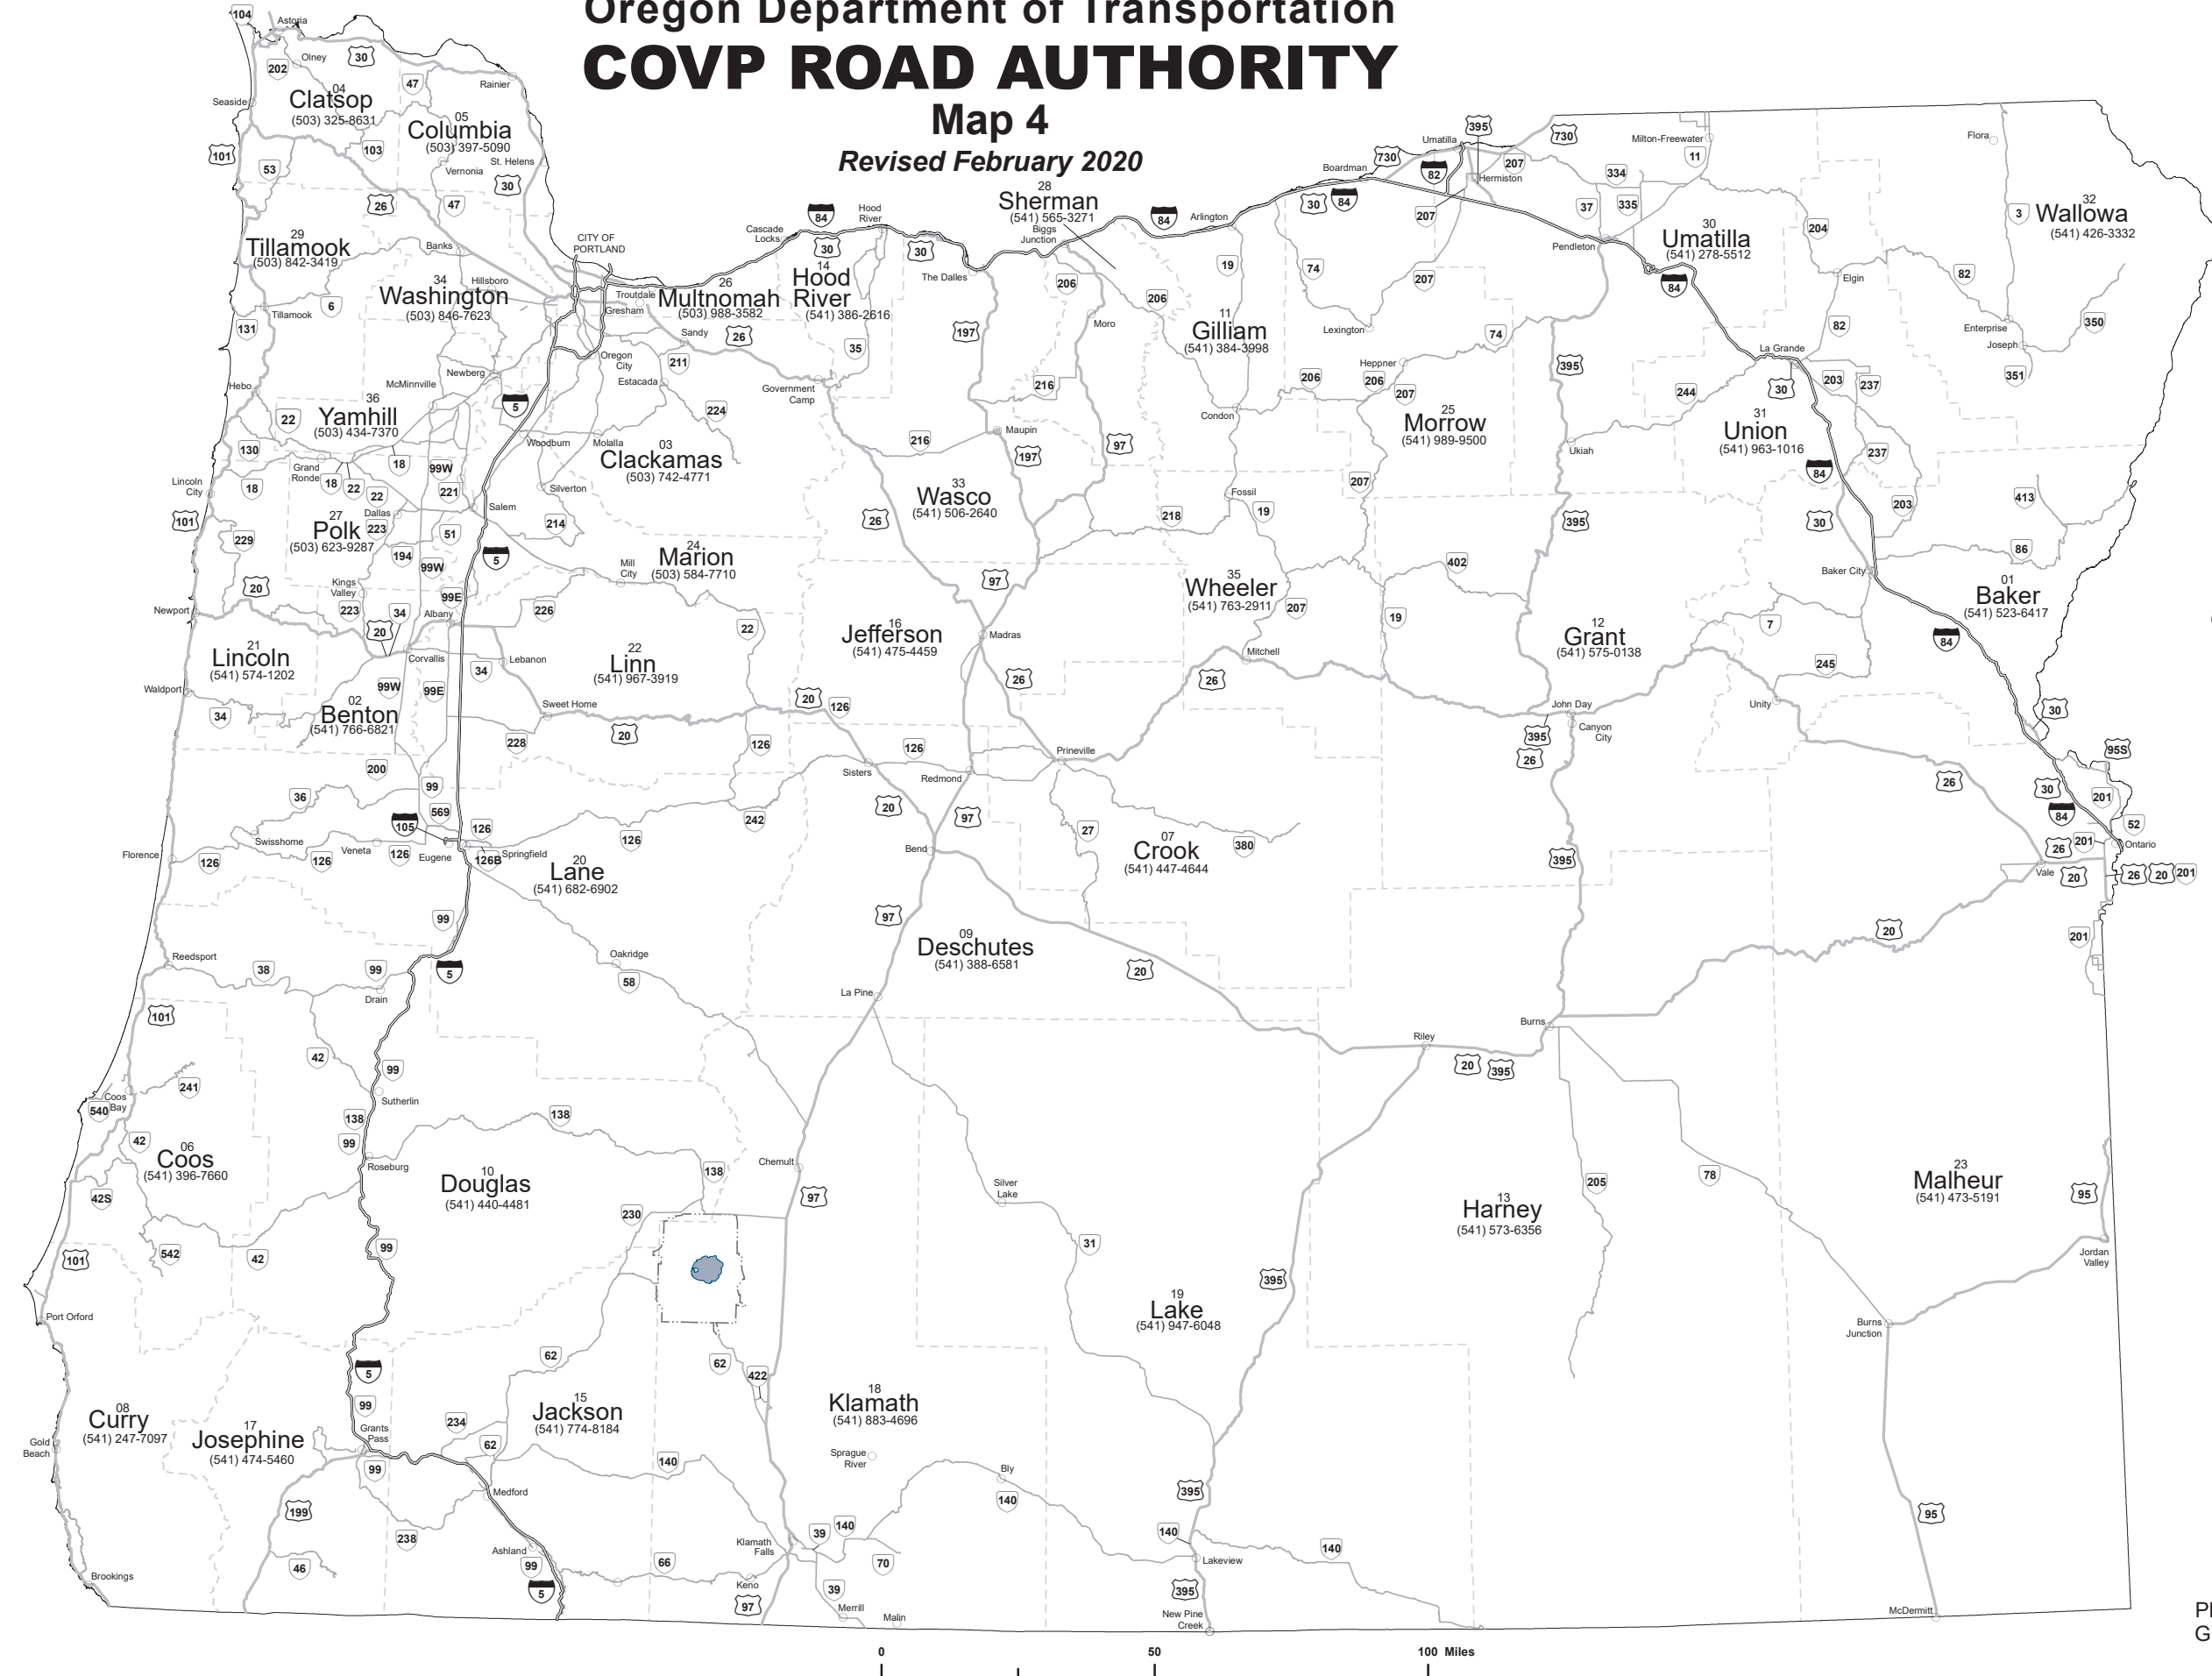

<p>Unladen heavy haul Truck tractor/semitrailer w/jeep and /or booster</p> 	<p>Unladen Heavy Haul Truck Tractor/Semitrailer w/Jeep and /or Booster Permit (Code 39) Authorizes the unladen movement of a combination with up to a 62' semitrailer when accompanied by a jeep and/or booster. The combination must include truck-tractor, semitrailer, jeep and/or booster. Jeep and/or booster may be decked. If jeep & booster are both decked, weights must comply with Weight Table 1.</p>
--	---

<p>Solo Vehicle</p> 	<p>Solo Vehicle (Code 43): Authorizes movement of an overwidth and/or overweight load on a solo vehicle. When hauling a single, non-divisible item, weights not to exceed 43,000 pounds on a tandem axle or 21,500 pounds on a single axle. When hauling multiple items, weights not to exceed 34,000 pounds on a tandem axle or 20,000 pounds on a tandem axle.</p>
---	--

<p>Heavy Haul/Overwidth</p> 	<p>Overwidth & Legal Weight 80,000 pounds Permit (Code 32): Authorizes movement of an overwidth and legal weight load on a truck trailer combination. The maximum gross weight authorized by this permit is 80,000 pounds, not to exceed 34,000 pounds on a tandem axle or 20,000 pounds on a single axle and not to exceed the wheelbase weights authorized by Weight Table 1.</p> <p>Heavy Haul Overwidth & Overweight 80,000 pounds Permit (Code 34): Authorizes movements where Permit Weight Table 3 applies to trailer hauling single non-divisible item only. All other combinations of groups of axles and gross weight must conform to Weight Table 1.</p> <p>Heavy Haul Overwidth & Overweight 98,000 pounds permit (Code 36): Authorizes movement of an overwidth and/or overweight load on a truck & trailer combination. The maximum gross weight authorized by this permit is 98,000 pounds, not to exceed 43,000 pounds on a tandem axle or 21,500 pounds on a single axle and not to exceed the wheelbase weights authorized by Weight Table 3. The power unit must be unladen.</p>
<p>70/80 Permit</p> 	<p>Truck Tractor w/Semitrailer 70/80 Permit (Code 30): Authorizes a truck-tractor/semitrailer combination to have a total overall length of 80 feet with a load length of a single item up to 70 feet. Authorizes rear overhang of up to 1/2 of the wheelbase. Wheelbase is measured from the center of steering axle to the center of the last axle of the semitrailer. Rear overhang is measured from the center of the last axle on the semitrailer to the rear most part of the load. No item may be loaded in multiple causing the overlength. The semitrailer shall not exceed 53 feet in length except by single-trip permit.</p> <p>Exception: Laminated wood products & wooden I-beams may be loaded in multiples providing not more than 49% of each item by length or weight overhangs the rear of the trailer and is not longer than the longest laminated wood product or wooden I-beam.</p>
<p>Long Logs, Poles or Pilings</p> 	<p>Long Logs, Poles & Pilings and Structural Members Permit (Code 06): Authorizes the transportation of long logs, poles, piling, and structural members on certain types of truck and trailer combinations. See permit for authorized combinations, approved routes, and authorized overall lengths.</p>
<p>Toter/Manufactured or Mobile/Modular Unit</p> 	<p>Manufactured Home, Mobile/Modular Unit Permit (Code 09): This permit authorizes the movement of mobile homes or modular units exceeding 8'6" in width or 45 feet in length. The maximum width, inclusive of eaves, is 14 feet. Pilot vehicle requirements are based on the extreme width of the unit inclusive of eaves. Modular units must be transported on a truck-tractor and semitrailer combination. The semitrailer shall not exceed 53 feet in length except by single-trip permit.</p>
