SCMS Foundation Awards Six Grants to Area Nonprofits

SPOKANE, WA---The Spokane County Medical Society Foundation is pleased to announce that it awarded six grants of \$1,000 each to local nonprofit organizations providing services to youth and women in the community as a demonstration of its ongoing commitment to the Spokane community, a rewarding way to close 2020 according to the Foundation board.

Included on the list of grant recipients are:

- **Crosswalk/Volunteers of America Spokane** is the only licensed emergency shelter serving runaway and homeless youth in Eastern Washington. An array of professional case managers, teachers, healthcare workers, and chemical dependency counselors work with Crosswalk youth with the primary goal of ending their homelessness and connecting them to stabilizing and supportive services.
- **Daybreak Youth Services** is a non-profit provider of adolescent addiction and mental health treatment services in Washington state. With residential Inpatient programs in Brush Prairie and Spokane, they provide safe and secure environments where teens ages 13-18 can commit to their recovery while engaging in school and recreation, as well as offering co-gender outpatient counseling and short-term crisis stabilization services.
- **Inland Northwest Academy of Family Physicians - Primary Care Update** is a well-established conference and tremendous opportunity for physicians and other health professionals to choose from more than 20 CME sessions and workshops designed specifically for primary care practitioners.
- **National Alliance on Mental Illness (NAMI) Spokane** provides NAMI Peer-to-Peer courses, NAMI Family-to-Family Courses, a NAMI Basics Course, and six support groups each month for individuals and families whose lives have been affected by mental illness. All courses are free of charge to the public.
- **Project Beauty Share** provides personal hygiene, cosmetics and beauty products to non-profit organizations who serve women and families overcoming abuse, addiction, homelessness and poverty to help restore hope and dignity in their lives.
- **Ronald McDonald House** Spokane provides temporary lodging, social and emotional support, at no charge, for families of children accessing medical services.

“There’s an opportunity where people are asking for help where we can potentially fill the need,” stated 2020 Foundation President, Dr. Deborah Wiser, “and that’s what continues to drive the Foundation today.”

The Spokane County Medical Society Foundation (SCMSF) was established in 1996 by physician and physician assistant members whose mission was focused on developing and operating programs that serve the health needs of our community. Its mission of “promoting and supporting the development of future physician and physician assistant leaders within our community, and identifying and funding important and innovative projects that advance the health of our community” is driven and preserved by the physician and physician assistant members of the Spokane County Medical Society.

About the SCMS Foundation

The Spokane County Medical Society's Board of Trustees established the Spokane County Medical Society Foundation (SCMSF) to identify, promote, receive and manage projects that provide leadership in scientific research, education, medical economics, public health, public interest and healthcare. Established in 1996, the SCMSF is focused on developing and operating programs that serve the health needs of our community and is driven and preserved by the physician and physician assistant members of the Spokane County Medical Society. The Spokane County Medical Society's Foundation's mission is to promote leadership development and identify and fund programs that support community health.

About the SCMS

The Spokane County Medical Society (SCMS) is a professional membership organization comprised of physicians and physician assistants, and their corresponding student populations. Created in 1885, the primary purpose of the organization was to promote physician unity and carry out public service, and that important mission still guides this association today. SCMS' mission is to fairly and objectively serve as a guardian of community health and wellness while leading and promoting the professional practice of medicine in our region.

The Spokane County Medical Society uses its resources and expertise, through collaboration and strategic partnerships, to facilitate the best community health possible for citizens of our region. SCMS is also well respected for its role in supporting the practice of medicine and stimulating teamwork across the regional healthcare continuum.
